Aims and Scope of the Themed Issue

The organizers of the [29th INTERNATIONAL CONFERENCE ON](#)

[AMORPHOUS & NANOCRYSTALLINE SEMICONDUCTORS \(ICANS 29\)](#) invite all presenters of oral or visual contributions related to Photovoltaics Materials and Devices to submit their work presented at the conference in a special issue of the European Physical Journal Photovoltaics. EPJ Photovoltaics is an open access journal which publishes original, peer-reviewed papers focused in the field of photovoltaic solar energy conversion.

Submissions

All the relevant manuscripts will be carefully considered, peer-reviewed by a distinguished team of international experts. The instructions for authors are detailed at: <https://www.epj-pv.org/author-information/instructions-for-authors>.

Authors are invited to submit their manuscript online at : <https://articlestatus.edpsciences.org/is/epjpv/home.php> and choose, during the submission, the special issue: 'PV Materials and Devices'.

Submission deadline – September 30th 2022

Article Processing Charges (APC)

The APC for EPJ Photovoltaics is 300 EUR and will be charged directly to the authors.

Information: articles having the corresponding author from the French institutions belonging to the list of the [National open access agreement in France members](#), can be published (after acceptance) in Open Access without any charge.

Other waivers and discounts

Research4Life programme

EDP Sciences is an active member of the Research4Life programme. We provide a waiver to authors based in countries included in [Group A of the Research4Life programme](#). If you are a corresponding author affiliated with an institution from this list of countries, you can publish in fully open access journals published by EDP Sciences free of charge. Please contact the production office of the journal if you are eligible for a waiver under the Research4Life programme.

CAS institutes

EDP Sciences has signed an APC agreement with the NSLC (National Science Library CAS) the research library service system for the Chinese Academy of Sciences (CAS). Under this agreement if you are a corresponding author affiliated with [one of the eligible CAS institutes](#), you can publish in fully open access or hybrid journals published by EDP Sciences at a 20 percent discounted APC price. Please contact the production office of your journal.

Technische Informationsbibliothek (TIB)

EDP Sciences has signed with the Technische Informationsbibliothek (TIB) a German National APC agreement. If you are a corresponding author affiliated with German academic institutions including universities and research institutions, you can publish in fully open access or hybrid journals published by EDP Sciences at a 20 percent discounted APC price. Please contact the production office of the journal.

EPJ Photovoltaics is abstracted/indexed in:

- [Advanced Technologies & Aerospace Database \(ProQuest\)](#)
- [Astrophysics Data System \(ADS\)](#)
- [Chemical Abstracts Service \(CAS\)](#)
- [CNKI](#)
- [Crossref](#)
- [DOAJ - Directory of Open Access Journals](#)
- [Ebscohost](#)
