Themed Issue on

Recent Advances in Photovoltaics 2022

Edited by:

- **Mohamed Amara** – UCB-INL (France)
- **Thomas Fix** – ICube (France)
- **Jean-Paul Kleider** – GeePs (France)
- **Judikaël Le Rouzo** – IM2NP (France)
- **Denis Mencaraglia** – GeePs (France)

Background

Every year, the French PV community meets at the conference Journées Nationales du Photovoltaïque (JNPV), which is a unique opportunity to review recent progress, have scientific discussions and exchanges on last results,

analysis, and perspectives in photovoltaics. In 2022, the JNPV conference takes place again on site from November 29th to December 2nd.

<https://jnpv.geeps.centralesupelec.fr/index.php/jnpv-2022>

Aims and Scope of the Themed Issue

The organizers of JNPV invite all presenters of oral or visual contributions to submit an extended version of their works presented at the conference which will be published by the European Physical Journal Photovoltaics in a special issue. The manuscripts will be peer-reviewed and publication will be open access.

EPJ Photovoltaics is an open access journal which publishes original, peer-reviewed papers focused in the field of photovoltaic solar energy conversion.

Submissions

All relevant papers will be carefully considered, peer-reviewed by a distinguished team of international experts. The instructions for authors are detailed at: <https://www.epj-pv.org/author-information/instructions-for-authors>.

Authors are invited to submit their manuscript online at : <https://articlestatus.edpsciences.org/is/epjpv/home.php> and choose, during the submission, the special issue: 'Recent advances in Photovoltaics 2022'

Submission deadline – March 3rd 2023

Article Processing Charges (APC)

The APC for EPJ Photovoltaics is 300 EUR (same for 2022) and will be charged directly to the authors. There is no submission fee.

Information: articles having the corresponding author from the French institutions belonging to the list of the [National open access agreement in France members](#), can be published (after acceptance) in Open Access without any charge.

Other waivers and discounts

Research4Life programme

EDP Sciences is an active member of the Research4Life programme. We provide a waiver to authors based in countries included in [Group A of the Research4Life programme](#). If you are a corresponding author affiliated with an institution from this list of countries, you can publish in fully open access journals published by EDP Sciences free of charge. Please contact the production office of the journal if you are eligible for a waiver under the Research4Life programme.

CAS institutes

EDP Sciences has signed an APC agreement with the NSLC (National Science Library CAS) the research library service system for the Chinese Academy of Sciences (CAS). Under this agreement if you are a corresponding author affiliated with [one of the eligible CAS institutes](#), you can publish in fully open access or hybrid journals published by EDP Sciences at a 20 percent discounted APC price. Please contact the production office of your journal.

Technische Informationsbibliothek (TIB)

EDP Sciences has signed with the Technische Informationsbibliothek (TIB) a German National APC agreement. If you are a corresponding author affiliated with German academic institutions including universities and research institutions, you can publish in fully open access or hybrid journals published by EDP Sciences at a 20 percent discounted APC price. Please contact the production office of the journal.
